2017-10-06 13:24:11      Version numbers in g_CSettings are
different from current version. Will install from default_data.
2017-10-06 13:24:11      Start copying files from default_data to
user data recursively, overwriting existing files:
2017-10-06 13:24:11      Counted default data files. Found 1993
files in 56 folders.
2017-10-06 13:24:24      Copied default data files with overwrite
mode ON. Found 1993 files in 56 folders. Number of file copy errors
= 0, number of folder errors = 0.
2017-10-06 13:24:24      Successfully wrote version string to
app.cfg in /Users/davefyvie/Library/Containers/
com.ootpdevelopments.fhm3macappstore/Data/Library/Application
Support/Out of the Park Developments/Franchise Hockey Manager 3/
config
2017-10-06 13:24:24      Startup - Everything good!
2017-10-06 13:24:24      eSellerate - exit with code
eWeb_ValidateActivation returned 0x00001388
(VALIDATEACTIVATION_MACHINE_MATCH)
2017-10-06 13:24:26      eSellerate - exit with code
eWeb_ConfirmSerialNumber returned 0x00000000 (SUCCESS)
2017-10-06 13:24:26      Startup - Facegen is enabled, checking
OpenGL
2017-10-06 13:24:26      GLWidget - Successfully created OpenGL
Context version 2.0
